

Abstract Title	Planning approaches for successful projects
Presentation Type	Oral Presentation
Full Name	Alex Ebner
Job Title	Director Planning
Organisation	Rail Projects Victoria

Introduction

The tsunami of rail projects being delivered as part of Victoria's Big Build is both exciting and challenging and in the seven years he has been with RPV Alex has developed a good appreciation of the factors that lead to successful project outcomes.

In recent years Alex's focus has been mentoring and training the next generation of project controls professionals.

Abstract

Over the last 7 years Rail Projects Victoria (RPV) has been planning and delivering the State's largest ever investment in rail infrastructure. With 40 projects and packages of work worth more than \$35 billion in the pipeline we have learned many valuable lessons.

In this talk Alex will share some insights from RPV, highlighting proven planning approaches that lead to the successful delivery of projects.

Alex will also discuss how the RPV Planning Team have been addressing the skilled resources shortage in industry by training and upskilling the next generation of project controls professionals.

Speaker Profile(s)

Alex is the Director of Planning at Rail project Victoria (RPV) where he is helping to deliver \$35 billion of rail infrastructure projects in Victoria including the Metro Tunnel, Melbourne Airport Rail, and the Regional Rail Revival.
