

Abstract Title	Governance and the Management of Portfolios
Presentation Type	Digital Masterclass
Full Name	Mike Roberts
Job Title	Director, Principal Consultant
Organisation	Millpond

Introduction

The aim of this masterclass is to explore the importance and practices surrounding good Governance and Portfolio Management. Project and Programme success directly depend on the capability and performance of the leadership surrounding them, which is why it is incredibly important to get this right. This masterclass will help attendees share good practices, discuss the common challenges that organisations face, and learn how to overcome them.

Abstract

This Governance and the Management of Portfolios masterclass will focus on the understanding of;

- Making the right decisions (Governance)
- Doing the right things (Portfolio Management)

Key items presented and discussed will be;

- The importance of organisational strategy
- The purpose, common issues, and real stories of Governance and Portfolio Management
- Common practices of Portfolio management, including lifecycle, value management, prioritisation and risk.

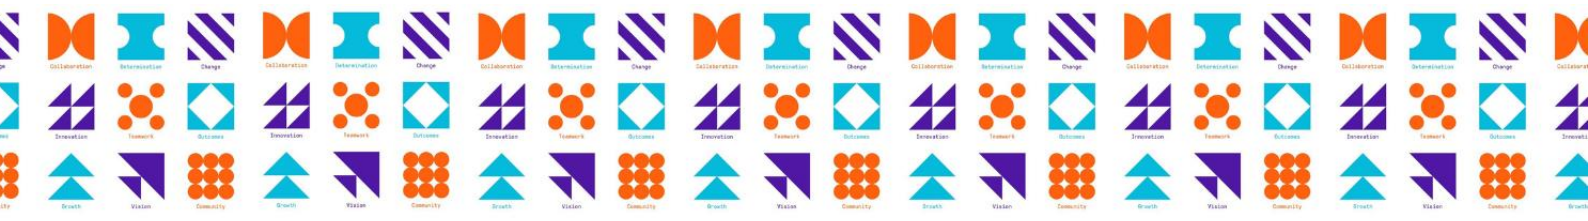

Organisations increasingly see the importance of effective Portfolio Management and appropriate Governance as the means for delivering business strategy through projects and programmes.

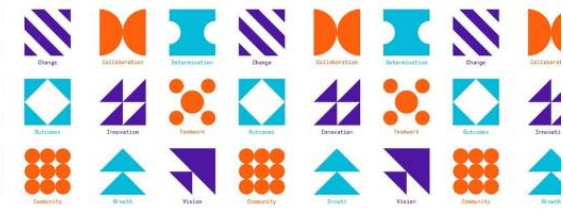

This masterclass is designed to equip attendees with knowledge and tools to assist in making better investment decisions and the management of changing organisational priorities.
